

# Observations of PSR B 12-59-63 around the 2014 periastron passage with SALT

B van Soelen, P Vaisanen, L. Klindt, P.J. Meintjes, A Odendaal & I. Such

**Fig. 1.** The model configuration of the VHE gamma-ray binary PSR B1259-63/LS 2883. The binary orbit is in the  $x$ - $y$  plane. The polar axis of Be star is tilted by  $45^\circ$  to the  $z$ -axis and has  $19^\circ$  of azimuth of tilt to the  $x$ -axis.
